

Social Return on Investment (SROI) Accreditation Training

SROI Accreditation Training is a two-day course essential for all professionals seeking to achieve SROI Accreditation status by Social Value International.

Upcoming Course Dates (2019)

Toronto - TBD

Calgary - November 26-27th, 2019

[Register me!](#)

Day One—How to do an SROI Analysis

Day One is a practical, step-by-step introduction to the SROI process. Founded on the essentials of SROI theory, the day will be focussed on building out an impact map and exploring real life applications and examples.

- Understanding the Principles of SROI
- Setting out your Story of Change
- Writing a Theory of Change Summary Statement
- Outcome to Impact
- Valuing Change with Financial Proxies

Day Two—Methodology in Practice

Day Two is an opportunity to explore methodology issues in order to develop the level of understanding required for accreditation.

- Calculating the Social Return on Investment (stakeholder value, financial proxies, outcomes to impact)
- Communicating and Reporting the SROI
- Accreditation and Assurance of SROI case studies

Who Should Participate

- Individuals seeking practitioner accreditation status and who intend to submit a case for peer review
- Evaluators interested in adding SROI to their skills toolbox
- Program managers, policy planners, communicators, or in-house evaluators focused on program effectiveness
- Representatives of all sectors, seeking to demonstrate the value of social elements in their program/organizational business model

Course Leadership

The SROI Accreditation Course is led by an accredited practitioner and trainer of Social Value International

Course Fees

- **Non-Profits: \$1,250 + tax**
- **Independent Consultant: \$1,550 + tax**
- **SMEs & Government: \$1,850 + tax**
- **Corporate: \$2,500 + tax**

***Note:** Fees do not include the accreditation case review fee paid directly to Social Value International.

Designed with the assurance process in mind, this course provides more than an introduction to SROI and is suitable for individuals seeking to explore the challenges and nuances of SROI. Topics that will be discussed include current issues, best practice, new technologies and financial proxies in the development of SROI.

This course is a necessary step towards becoming an accredited practitioner, but does not guarantee accreditation.
